Greenwipes[®] IPW-8000 IPA

Convenient Alcohol Wipes
For Electronics

IPW-8000 IPA ELECTRONIC WIPES

Greenwipes® IPW8000 IPA Presaturated Wipes are professional quality isopropyl alcohol wipes for electronics and electrical components. It is formulated with 70% Isopropyl Alcohol (IPA) and 30% Deionised (DI) water to effectively clean a wide range of electronics related residues such as solder paste, flux, thermal paste and carbon deposits on various plastic and metal components such as ABS, Polycarbonate, Stainless Steel, Tungsten, Copper without melting or corroding these materials.

These IPA wipes are enhanced with unique OptiDri™ Technology for optimised controlled release of liquids, so you get well saturated wipes that retain a generous amount of cleaning formulation but does not release its liquids in excessively damp patches.

Designed For:

Cleaning and removing of electronics related residues such as adhesives, solder paste, flux, thermal paste, carbon deposits, finger prints, debris and light grease and oils.

Ideal For:

Industries related to producing and servicing of electrical parts in such as semiconductor, electronics manufacturing, printing, cleanrooms, PCB assembly and SMT stencil cleaning.

Also Available in:

Ultra Low Lint	Lint Free
Materials : Polypropylene	Materials : 100% Polyester
200 Sheets	150 Sheets
16 x 19 cm	22.5 x 22.5 cm

Product Code: IPW-8000
100 Sheets Per Canister
10 Canister Per Carton
Sheet Colour: White
Sheet Size: 15 x 20 cm

Why IPW-8000:

- ✔ **OptiDri™ Technology** - For optimised controlled release of liquids
- ✔ **Withstands Vigorous Cleaning** - Removes tough electronic residues such as solder paste on abrasive surfaces without tearing
- ✔ **Electronics Grade** - Cleans all types of electronics without causing water damage
- ✔ **Plastic-safe & Non-corrosive on Metals**

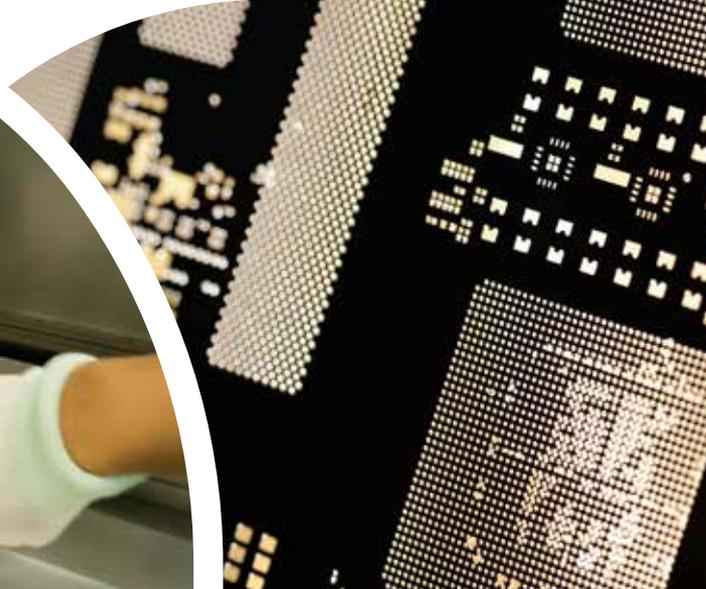

TIME SAVING
